From the Attendance Team

Sometimes you may notice attendance code O on your child's school record. This simply means your child was absent and the school did not have enough information to authorise the absence at the time. It may be used if we haven't received a reason, or if the reason given cannot be authorised under national attendance guidance. We understand that absences can happen for many reasons, and we encourage parents to contact the school as early as possible on the first day of absence and every day their child is not in school. We can then support families and record attendance accurately. Absences recorded with an O code are counted as unauthorised and can affect overall attendance. Having 10 O codes may trigger legal proceedings.
